## Family Activity

This week, your child learned about giving to others in order to help them. The people who lived in Macedonia didn't have much to give, but they made the choice to help the people in Jerusalem who needed money because the people of Jerusalem had told them about God.

Just like the Macedonian people, we should be excited to give what we have to help others. This week, work together as a family and make a list of some items you have that others might need. Walk through the house with your children and help them point out different items to put on the list. Decide on one of those things to give to someone else who needs it and give it to them.

Encourage your children to give to others when they see someone in need.
